1. I concur in your recommendation and that of the Project Intelligence Officer in reference A. I am asking Mr. Reber, in association with [REDACTED], to take this matter up initially with [REDACTED] Office and I will carry it further with [REDACTED]. After the arrangements have been worked out in outline, I anticipate that they will be administered by your division in direct contact with [REDACTED] Office.

2. I also agree with your recommendation in reference B. concerning the processing of electronics data from electronic systems #1 and ultimately #4. I have asked Mr. Reber to take primary responsibility for this matter too, since it is an aspect of the general problem of the utilization of intelligence derived from AQUATONE and we have, as you know, discussed this whole problem in the Requirements Committee.
